Can a trip to the dentist ever be a joyful experience? With Dr. Paul's Dental Clinic it always is. Our thoughtful service and added value have made going to the dentist an experience the whole family can look forward to.

Our mission is to offer our patients all the dental services they'll ever need in one destination, while bringing it to them in a fashion that is superior to any other dental clinic in the region. We do so by employing some of Dubai's most accomplished dental practitioners to take care of your oral needs. In addition we create an environment of warmth and care so that patients will feel right at home. Our staff members are always welcoming and friendly and you'll find that they speak a range of languages, from English, Arabic and French to Filipino and Spanish. To ensure that your dental experience is even more rewarding, Dr. Paul's Dental Clinic has implemented unique loyalty programmes for our adult patients as well as the little ones. Visit www.drpaulsme.com to read more about the benefits you can enjoy.

Dental care however is not confined to our office. To help facilitate a community with healthier smiles we continuously conduct dental awareness programmes at schools and corporate offices. It's our way of giving something back to the community.

Achieve ultimate oral health and beauty with Dr. Paul's, a multi-speciality dental clinic in the heart of Dubai. From preventive dentistry to cosmetic treatment, our team of professionals stays on top of the latest advancements in the industry to bring you the best dental services that the Middle East has to offer.

The latest equipment and treatment procedures

Dentistry has advanced by leaps and bounds over the last decade. Today, dentists have equipment available to them that expedites diagnostics, greatly minimises the invasiveness of various procedures, reduces pain during treatment and provides superior results. To give patients a superlative service we deploy these latest technologies throughout our clinic.

Each operatory is equipped with state-of-the-art treatment centres that guarantee reliability, outstanding ergonomics, top level performance and compliance with the strictest international hygiene standards. It allows our dentists to make the very most of their skills, facilitating a smooth interaction between dentist, patient and assistant.

Our sterilisation procedures strictly meet the guidelines laid down by the Dubai Health Authority and Dubai Municipality and it is continually monitored to maintain the standard. Moreover, we are equipped to provide treatment under conscious sedation, while our operatories are well equipped to handle medical emergencies that might occur during dental treatment.

By spending more on serving our patients we never compromise on quality so that you never have to compromise on peace of mind.

Cosmetic Fillings • Root Canal Treatment • Crowns & Bridges • Veneers • Laser Dentistry • Specialised Paediatric Dental Care • Professional Whitening • Smile Designing • Digital X-rays • Braces - Regular & Invisible • Dental Jewellery • Sealants & Fluorides • Complete & Partial Dentures • Minor & Major Oral Surgeries • Professional Cleaning & Polishing • Implants

Cutting edge equipment used at the clinic:

Dental OPG Machine - gives a panoramic x-ray. An invaluable tool in proper diagnosis and treatment planning as many problems that show up on an OPG x-ray is not evident through traditional x-rays or clinical examination.

Bleaching Photo Accelerator - whitens teeth more effectively than ever before.

Radio Visiography - a highly sophisticated, computerised imaging system providing an immediate digital image of a tooth during treatment. Also dramatically reduces the amount of patient exposure to radiation.

Intra-oral Camera - allows a patient to see inside their mouth. It gives patients a better

understanding of arising problems and helps them to make more informed decisions about their oral health. Intra-oral cameras also have the capability of capturing snapshots that can be used for dental insurance claims.

Soft Tissue Laser - used mainly to re-contour soft tissue and to enhance aesthetics. It's sometimes used to remove excess tissue and dark discolourations on gums.

Halimeter - Halitosis (bad breath) can lead to social alienation. The Halimeter is a valuable tool in the detection and treatment of halitosis.

Electro Cautery - a bloodless process for removing unwanted soft tissue. Also helps in arresting continued bleeding.

Root Canal Obturator - considerably reduces the time required for the entire treatment.

Braces - Regular & Invisible • Dental Jewellery • Sealants & Fluorides • Complete & Partial Dentures • Minor & Major Oral Surgeries • Professional Cleaning & Polishing • Implants

Dental service with heart

Our services are designed to create value and show customers that we care for them. From a simple birthday wish and reminders for regular check-ups, to periodic informative newsletters we strive to deliver the best customer service in order to attain utmost patient satisfaction.

One of our most exciting undertakings is the Dr. Paul's loyalty programmes. We are always looking for ways of reaching out to our patients. Now, with our loyalty programmes, we are able to bring you a lot more to put a smile on your face.

Kids Club

We have designed an exclusive kids club to get the little ones excited about a healthy smile. With periodic promotions, competitions, give-aways and more we want to engage our junior patients while they are still young. If we can get them brushing and flossing today, it will increase longevity and health of teeth and gums.

Adult Loyalty Programme

Nothing is more important than our patients. To show our gratitude for your support we feel it's our obligation to give something back. We have designed the Dr. Paul's Loyalty Programme to reward patients who render our services. Once you join the programme you will be eligible for a range of exciting benefits. From free consultations and money back, to exclusive promotions and discounts at partner outlets, a whole new world of excitement awaits our loyal patients. Visit www.drpaulsme.com for more information.
